

Project Information Form

Project Title:	Examining the Safety, Mobility and Environmental Sustainability Co-Benefits and Tradeoffs of Intelligent Transportation Systems – Phase 2
University:	University of California, Riverside
Principal Investigator:	Xuewei Qi, Matthew Barth
PI Contact Information:	Xuewei Qi: xqi001@ucr.edu Matthew Barth: barth@ece.ucr.edu
Funding Source(s) and Amounts Provided (by each agency or organization):	US DOT - \$10,000
Total Project Cost:	\$10,000
Agency ID or Contract Number:	DOT 69A3551747114 UCR-DOT-408-WP
Start and End Dates:	January 1, 2017 – March 31, 2017
Brief Description of Research Project:	This project is a continuation of the previous Safety, Mobility, and Environmental Sustainability Co-Benefits and Tradeoffs of Intelligent Transportation Systems (ITS) project that focused on a holistic assessment and examination the co-benefits and tradeoffs between safety, mobility and the environment for a variety of ITS applications. It extends the analysis into infrastructure-based applications.
Describe Implementation of Research Outcomes (or why not implemented): Place any photos here	
Impacts/Benefits of Implementation (actual, not anticipated):
